Powerful + easy to use software.

Portability:

Cloud based point-of-sale system, all you need is an internet connection. Compatible with iPad, PC, and Android tablet. Optimized for the mobile experience.

Usability:

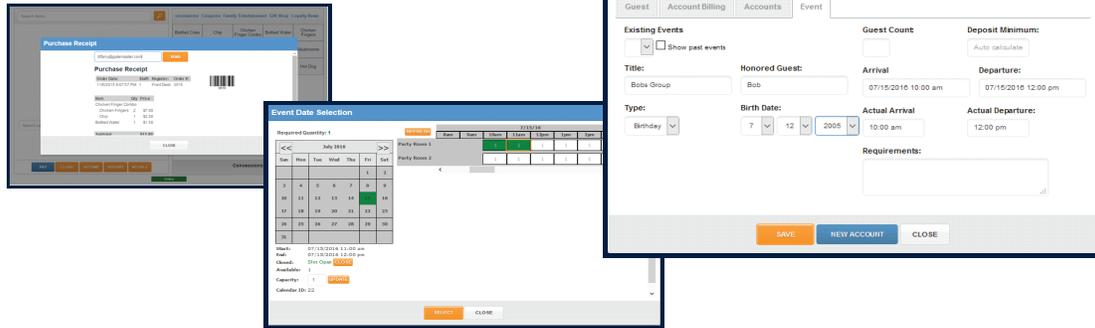

Easy, intuitive set up with built-in help topics to guide you. Train your staff in minutes. Accept payments anywhere. Use your hardware or buy our tablet system.

Security:

Rest easy that your transactions are secure with our integrated, PCI compliant, credit card processor. Tight cash control - customizable analytics - inventory tracking. Control user permissions - restrict access to sensitive data.

Gatemaster

POINT-OF-SALE, TICKETING, AND INTERNET SOLUTIONS

Easy * Affordable * Reliable * Flexible

Point-of-Sale and Ticketing

Point-of-Sale for the entertainment industry, etickets, convenience, control.

Events and party booking

Easily book parties, reserve rooms, sell packages and a la carte items.

Loyalty and Membership Rewards

Reward your best customers at pre-set spending limits, create customer loyalty.

Inventory Control

Enter inventory when it comes in, the system tracks it when it is sold. Easily generate inventory reports so you know when to reorder.

Ecommerce and online party booking

Allows your customers to book parties online 24/7, buy party packages, add a la carte items, and pay a deposit. Event staff gets an email as soon as deposit is paid.

Reports

Create customizable reports by merchandise items, staff, date and more. Check the pulse of your business anytime, anywhere.

Always getting better.

We're always adding new features to help expand your business potential. It's just one of the great things about the cloud.
